 RIFFLE & DEBUS.
 Cap-au-Gris, Mo., March 6, 1878.

An antidote which will cure every variety of Ague, Fever and Ague, and Chills and Fever, and leave no bad trace or disorder in the system, has been discovered by one of America's greatest Chemists. This preparation or principle is known by the name of CLIFFORD'S FEVERIFUGE. Being entirely free from minerals or other deleterious materials, it accomplishes its work without being in the least harmful to the system. Entering the blood, it disinfests and eliminates all the poisonous miasm or malaria, and thus accomplishes a sure cure.
 J. C. RICHARDSON, Prop'r.
 St. Louis.

For sale by all druggists.

A REMARKABLE RESULT.—It makes no difference how many physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled in the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boache's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America.

To Our Friends and Patrons.

We take this method of thanking our friends for liberal patronage thus far bestowed, and reminding those who are still in arrears that we are about to close out our business. We have outstanding debts that must be paid; to do so, we must have money. All knowing themselves indebted to us are earnestly requested to settle up on or before May 1st. All unsettled claims will be placed in the hands of an officer for collection after that date.

Very respectfully yours,

JOHN MOUNCH & Co.

FROM CHAMBER OF COMMERCE.
 Farming is well advanced in this section.

Major Anderson has had his mill painted. The improvement in appearance is very marked.

Esquire Williamson closed, week before last, a very successful term of six months' service as teacher of the public school in this district.

At the school meeting last Tuesday, J. W. Birkhead was elected director for three years and Wm. Eggerling for the unexpired term (two years) of Geo. S. Brown, resigned.

The roads between this place and Troy are becoming comparatively safe again for travel. A good, strong team can pull an empty wagon all the way to Troy and back the same day if no time is lost and the driver keeps a cool head and a keen eye.

The Murphy movement in this vicinity continues to flourish. It was inaugurated by Elder Thomas, some weeks ago, who obtained about fifty signers to the pledge. In the organization, John Currell was elected president, John N. Pollard, treasurer, and Wm. G. Merahon, secretary. At this meeting, R. D. Walton, of your place, made an address and several added their names to the list. Regular meetings are held and new members are added at nearly every meeting. This is naturally the most temperate part of the county.

Rumors of coming candidates are beginning to reach this place. We say, may the best men win. There are three offices to be filled by election this year, for which it is presumed that few aspirants will offer; namely, the justices of the county court. It is but right, then, that the people look about and endeavor to select the right men for the position. In this vicinity the ticket generally, and favorably spoken of is: for presiding justice, Wm. H. Priest; for associate justices, Lawrence B. Sifton and Elijah Myers. I don't know how they stand upon matters that may come up as issues in the canvass, but I do know that they each possess qualifications indispensably necessary, and at the same time sufficient for the competent performance of the position: sterling honesty and cool, clear judgment.

After many delays our bridge now approaches completion. The last stone in the pier was laid last Wednesday morning. The scaffolding was commenced the same day and finished this morning. At this writing the timbers for the top chord are being raised to their place, seventy feet above the water. If no further bad luck interferes, the work will be finished inside of ten days.

April 6.

FIND ME, VILLE.

Everybody plowing for corn. Weather fine and warm for the season of the year.

A letter passed through this post office addressed to "Mr. C. L., Montgomery City, Mo. If not called for within ten days return to Lena and Maud, George Eye, Calhoun county, Ill. Remember me and all the rest. In care of Tommy, the boy that milks the cows for sister."

In answer to the Louisville correspondent in regard to letters being carried from and to him in the same mail, we are informed that his complaint does not affect this office, it is provided with a mail bag of its own, furnished by the government, and that the post master never opens the Louisville and Troy mail bag going down or coming up. So much for this end of the line.

The party at Mr. Bob Moore's, we are informed, was a very enjoyable affair.

Our spring school opens to-day. Three of the Misses Clark of Montgomery county are pupils of Miss Moseley.

Evans Bro's have been before the public a number of years, and have given general satisfaction. Try them with your shipments of tobacco. See their card.

St. Louis Market.

From the Republican of the 8th.
WHEAT—Opened with an easy up approximation to Wednesday's closing prices as possible, yet lower—but there was no exciting war news or conviction to sustain them, but rather a general distrust, based on a theory that Russia could not maintain herself against the pressure of the "balance of power" principle, and prices receded, and with less recovery than other days have displayed. No 8 red winter was slow at lower than Wednesday's opening, and 2c than closing, \$1.17@1.17 1/2, while the transactions in No 8 for future were tame and downward. April delivery closing 18c lower than the preceding day at \$1.16 1/2, although it opened at \$1.15 1/2—and May closed at \$1.16 1/2, or 3/4c lower or 1/2c lower than opening sale at \$1.20 1/2. No 4 for cash was in demand and was freely salable at \$1.12, which was a strong and good price for it in view of the tendency of values. No 2 mixed sold at \$1.24; but this grade is of little consideration and no market weight from its extreme scarcity.

CORN—Was in moderate demand and a lower for cash, and fell 1/2c at close for future, which was a large and steady gravitation from opening sales. Cash sales of No 2 mixed and other grades mixed excepting white-mixed were at 40c—Wednesday's opening, but 1/2c less than closing; while No 2 white-mixed opened at 40 1/2c, which was 1/2c less than closing of preceding day, and closed at 40 1/2c, and rejected sold freely at 37 1/2c. No 2 mixed sold to the small extent of 50,000 bushels at 42 1/2c down to 42c May, 42c June and 42 1/2c July.

OATS—Were dull and lower to sell for cash and future—the latter of no account. Sales of No 2 were at 23 1/2c, and rejected, which was in rather better demand and salable better in consequence—at 24 1/2c. For April 24c was asked and 23 1/2c bid, May 27c and 27 1/2c.

LEAF TOBACCO—Market very dull, heavy and weak, owing to the discrimination in Eastern freight, which is now 5c per 100 lbs above fourth-class. Break small and quality poor; only 15 hds sold out of the 40 hds; passed—35 hds, large (\$1.70 the best bid); rejected—bids on 10 hds at \$1.70 to \$2.00; 5 at \$2.20 to \$2.40. Sales: 5 hds at \$1.00@1.80; 7 at \$2.50; 1 at \$3; box at \$1.75@1.90; fair to good dark lugs at \$2.20; inferior, nondescript dark leaf at \$2.25; 3 1/2; common dark leaf \$2.35; medium dark leaf \$2.45; medium red leaf \$2.55; good red leaf \$2.60; bright wrapper nominal. Sound old crop leaf is 50c to \$1 per 100 lbs higher than same quality of new crop, but the latter is preferred to unsound old stock.

Live Stock.

CATTLE—Market only moderately active. Fair to good and choice native butchers and shipping steers of 1,000 and 1,500 lbs range were the grades most wanted. Choice to fancy \$4.00@5.25; good to prime steers \$4.00@4.85; medium and light \$4.00@4.40; fair to good feeders \$3.50@4; native cows \$3.50@4.

HOGS—The demand from shippers and butchers very urgent and the fair supply again did not prove ample enough to fill the wants of buyers. In consequence many had to go partly filled only. This was especially the case with shippers. All grades of hogs both light and heavy were in active demand at the quotations given below, but as may be imagined, light hogs and Yorkers were the grades most sought after. The market closed steady. Values firm at \$3.20@3.45 for light hogs and Yorkers, \$3.20@3.40 for packing and \$3.45@3.70 for butchers' and select hogs.
